First: Chief Executive Officer Message

Ras Al Khaimah White Cement & Construction Materials Company aspires to achieve leadership & continued excellence in field of specialization, on the basis of customer satisfaction first & on the completion of the projects entrusted to it on time. We always aim to challenge the temporary & partial difficulties by achieving what we aspire to & continuing our mission to the fullest.

Today, we look to the future with confidence & optimism, based on a solid ground & a bold vision, through stimulating innovation & investment in modern technologies to drive digital transformation, in addition to seizing future opportunities to maximize added value for customers & shareholders.

We hope that we will always be as we promise & achieve more success & more challenges & never forget those who contributed in this success path & helped us to build this entity & put us on the path to success. I take this opportunity to confirm our pledge to our valued customers & confirm our dedication to boost their trust in us & maintaining our solid reputation & values. We will continue to work hard to maintain the standards we set from the start.

Second: About the report

Sustainability is defined as the study of how natural systems function, diversify & produce everything the natural environment needs to remain in balance. Sustainability also acknowledges that human civilization provides resources to sustain our contemporary way of living. We live in a modern, civilized world where we consume many natural resources daily. Sustainability & sustainable development focus on the balance between calculating needs, our need to use technology economically & the need to protect the environment in which

we live. Sustainability is not only related to the environment, it is also about the health of societies & ensuring that people do not suffer because of environmental legislation. It can also be said that it is an awareness of the company's positive impact on the environment & the surrounding community, & its keenness to mitigate any negative effects caused by the company's operations by adopting initiatives that take into account the three most important components of development, which are society, environment & economy. Sustainability is of particular importance to the UAE, as the adoption of sustainability initiatives coincides with the vision of the country's leadership for an environment friendly future, within the framework of the green economy strategy launched by His Highness Sheikh Mohammed bin Rashid Al Maktoum, Vice President & Prime Minister of the UAE & Ruler of Dubai, may God protect him. This strategy encourages companies to play a greater role in developing society & protecting the environment, through initiatives that advance Emiratization, support entrepreneurs & ensure environmental safety. As part of our keenness to assist the state in achieving goals in the field of sustainability, consolidating the foundations of a sustainable society & promoting economic, social & environmental development.

In order to promote & support sustainable development, we are pleased to present to you the third sustainability report of Ras Al Khaimah White Cement & Construction Materials Company & its subsidiaries. This report covers our performance in relation to sustainable development during the period from January 01, 2022 to December 31, 2022. This report reviews the social performance, environmental performance & corporate governance.

Forth: Sustainable Development Goals

The Sustainable Development Goals (SDGs), also known as the Global Goals, were adopted by the United Nations in 2015, these goals have the power to create a better world by 2030, by ending poverty, fighting inequality & addressing the urgency of climate change. Here are the efforts of Ras Al Khaimah White Cement Company in achieving some of the development goals as summarized in the table below:-

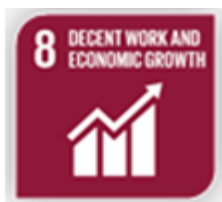

- ◆ Hire local employees.

- ◆ Offer health insurance to employees.
- ◆ Provide safety health and welfare at work & Raising awareness about health in the workplace.

- ◆ We uplift, support and empower women in our company.
- ◆ There is no gender discrimination in remuneration.
- ◆ We provide new mothers with extended maternity leave and flexible working hours.

- ◆ The company has subsidiaries that contribute to achieving economic diversification.

- ◆ Enable everyone to participate in non-discrimination policies.

Fifth: The Environmental Dimension

Responsible dealing with the environment to avoid the depletion or degradation of natural resources & to preserve the environment in the long term, the environmental protection element is considered the third element & a focus for the future of humanity. Environmental sustainability helps to ensure that the needs of the world's population are met without compromising the ability of future generations to meet their needs, by working to reduce the harmful effects of productive activities on the environment, rational consumption of non-renewable resources, & recycling waste. In light of this, Ras Al Khaimah White Cement Company is committed to protecting & improving the environment through the use of modern filters to treat the dust rising from the kilns, planting trees, as well as the daily spraying of roads, empty spaces & raw material sites, as well as the company has advanced equipment to detect dust.
